Profile Summary

Frontend Developer with strong expertise in **React.js**, dedicated to **building scalable, high-performance web applications**, and implementing best coding practices. Passionate about creating seamless user experiences and continuously learning new technologies to stay ahead in the fast-evolving web landscape.

Projects

- 1. Netflix Clone** | [GitHub](#) | *React.js, Express.js, HTML, CSS, JavaScript* **January 2025**
 - Developed a Netflix-inspired streaming UI using React with responsive design.
 - Implemented hero banners, category-based content rows, and interactive cards.
 - Added user authentication, search functionality, and detailed content views.
 - Designed with a dark theme, smooth hover animations, and clean UI transitions.
- 2. 3D Portfolio Website** | [GitHub](#) | *React.js, HTML, CSS, JavaScript* **February 2025**
 - Designed and developed an interactive 3D-themed portfolio showcasing projects and skills with smooth navigation and dynamic UI.
 - Built a 3D animated homepage with name and tagline intro.
 - Created interactive navigation through a virtual gallery-style interface.
 - Embedded live demos and detailed project views via clickable 3D elements.
 - Implemented dark/light themes and an engaging contact section.
- 3. Dynamic Todo List App** | [GitHub](#) | *ReactJS, Express.js, HTML, CSS, JavaScript* **March 2025**
 - Built an advanced, responsive Todo List application using React with a visually rich and interactive UI.
 - Added full CRUD functionality: create, edit, complete/incomplete, and delete tasks.
 - Integrated Unsplash API to display context-based images for each task (e.g., "shopping", "running").
 - Implemented dark theme with animated floating stars using animations in CSS.
 - Included timestamps, colorful buttons, FontAwesome icons, and smooth transitions for better UX.
 - Designed a mobile-friendly, accessible layout with responsive styling and keyboard support.
- 4. Restaunt Menu Application** | [GitHub](#) | *HTML, CSS, JavaScript* **December 2024**
 - Designed and implemented a Restaunt Menu Application using HTML, CSS, **JavaScript** and **Tailwind CSS** for designs.
 - Developed a dynamic restaurant menu application that allows users to browse menu items, view prices, and filter categories.
 - Users can browse and view menu items with images, names, and prices.
 - Allows users to add items, adjust quantities, and remove items in real-time.
 - Implemented sign-up and login features for user accounts.
 - Ensured a seamless experience across devices with a mobile-friendly layout.

Technical Skills

Programming Languages: Java, HTML/CSS, JavaScript

Databases: MongoDB, Firebase, MySQL

Developer Tools: VS Code

Frameworks: Express, ReactJS, GitHub

Additional Skills: DSA, OOPS

Soft Skills: Communication, teamwork

Education

Amity University (CGPA: 8.1/10)

Bachelor of Arts

2019 – 2022

Noida, Uttar Pradesh

Trainings

Coding Ninjas

Full Stack Web Development

September 2024 – May 2025

- [Backend](#) | [Frontend](#) | [Data Structure](#)

Achievements

- Earned 8 learning awards in Coding Ninjas.
- Solved 70+ DSA Coding problems in Code360
